SUMMARY

React Native Mobile App Developer with 2+ years of experience building and shipping **cross-platform mobile applications** (iOS & Android) using **React Native (Expo)**, with strong full-stack capability across **React.js, Next.js, and Node.js**. Proven track record delivering **real-time features** (Socket.io, push notifications, live streaming), **third-party API integrations** (Stripe, Google Maps, Hugging Face AI, Cloudinary), and **native device features** (GPS/location services, camera/media) for international clients in the UK and France. Experienced with **Firebase Firestore**, **MongoDB**, **REST APIs**, **Git/GitHub** version control, and **Capacitor** for hybrid app deployment. Currently building **CI/CD** and cloud deployment skills as a DevOps Intern. Strong communicator with a 100% on-time delivery record managing complete project lifecycles end-to-end.

EXPERIENCE

Freelance Full Stack & React Native Developer July 2024 – Present
Self-Employed (Remote) – Clients: UK & France Remote

- Delivered **3 production-grade cross-platform mobile and web applications**, independently managing the **full mobile app lifecycle** from scoping to **app store deployment**
- Built apps using **React Native (Expo)**, React, Next.js, Node.js, MongoDB, Firebase, and **Socket.io**, delivering **real-time chat, push notifications, and live video streaming**
- Integrated **native device APIs** including **GPS/location services**, camera, and media for location-based and media-sharing features
- Integrated **Stripe payments**, **Google Maps API**, **Hugging Face AI models**, and **Cloudinary** media pipelines into mobile workflows
- Maintained **100% on-time delivery** through disciplined **Git** version control, client communication, and iterative **agile** deployment cycles

DevOps Intern 2025 – Present
System Limited Lahore, Pakistan

- Operate **CI/CD pipelines** and automated deployment workflows in a live production environment, reducing manual deployment time by **40%**
- Configure and monitor **cloud infrastructure** supporting **containerized (Docker)** application deployments
- Assist with environment configuration, infrastructure monitoring, and incident response across staging and production

Junior Web Developer 2022 – 2023
Faheem Tech Pakistan

- Developed responsive, cross-browser **UI components** using HTML5, CSS3, and **JavaScript** for 5+ client websites
- Integrated **REST APIs** to connect frontend interfaces with backend services, optimizing data load times
- Diagnosed and resolved UI performance issues, reducing reported bugs by **30%**

PROJECTS

Trips – Cross-Platform Travel Social Network | *React Native (Expo), Node.js, MongoDB, Firebase Firestore, Socket.io*

- Built a **Digital Passport** system with **GPS-based location stamps**, real-time chat, **push notifications**, and **live video streaming**
- Designed a **MongoDB + Firebase** backend architecture handling **high-concurrency** usage and scalable media sharing

Jigara AI – AI-Powered Mobile Image App | *React Native, Hugging Face AI, Cloudinary, Strapi, Node.js*

- Developed a **cross-platform mobile app** for AI image generation, enhancement, and background removal using **Hugging Face** models

- Integrated **Cloudinary** for optimized media storage and **Strapi** as a headless CMS backend

EduFlex – Lesson Marketplace (Mobile + Web) | *React.js, Node.js, MongoDB, Stripe, Google Maps API, Capacitor*

- Delivered a full-stack marketplace deployed on web and **iOS/Android (via Capacitor)** with **Stripe checkout**, real-time chat, and **Google Maps** geolocation-based discovery

Circle Proof – Professional Verification Platform | *React.js, Node.js, Express.js, MongoDB, Socket.io*

- Architected a reusable **universal form system** for scalable, dynamic data handling – reduced new form dev time by **60%**
- Implemented **real-time chat (Socket.io)** and interactive data visualization dashboards

EDUCATION

Bahauddin Zakariya University, Multan (Lodhran Campus) 2021 – 2025
Bachelor of Science in Information Technology (BS-IT) CGPA: 3.61 / 4.00

SKILLS

Mobile: **React Native (Expo)**, Capacitor, Android Studio, Push Notifications, GPS/Location Services, App Store Deployment
Frontend: React.js, Next.js 15, Redux Toolkit, Tailwind CSS, Framer Motion, HTML5, CSS3
Backend: Node.js, Express.js, REST APIs, **Socket.io (Real-Time)**, Django (Basic)
Databases: MongoDB, **Firebase Firestore**, MySQL, PostgreSQL
APIs & Integrations: **Stripe**, **Google Maps API**, **Hugging Face AI**, Cloudinary, Strapi
DevOps & Tools: Git, GitHub, **CI/CD Pipelines**, Docker (Basic), Cloud Deployment, Agile/Scrum

CERTIFICATIONS

React Native – The Practical Guide – Udemy
MERN Stack Front To Back (MongoDB, Express, React, Node.js) – Udemy
Meta Front-End Developer Professional Certificate – Coursera
JavaScript Algorithms and Data Structures – freeCodeCamp
